

Marlon Steiner

Junior Fullstack Developer

Contact Info: msteiner.sudo@gmail.com • St.Gallen, Switzerland • Available Immediately

Personal Statement

Fullstack Developer with modern web development training and 4+ years of technical experience across mechanical systems, enterprise software, and robotics development.

Experience

Freelance Ecommerce Developer

2025 | Entrepreneur • Zurich, Switzerland

- Built a jewelry website for Juwelier Mahler using WordPress, ensuring responsive design and optimal user experience across all devices.
- Customized WordPress themes and implemented modern web design principles to create an engaging, aesthetic online presence for luxury jewelry products.
- Deployed and hosted the website on Hostinger platform, managing domain configuration, hosting setup, and ongoing website maintenance for optimal performance.
- Collaborated directly with clients to understand business requirements and translate design concepts into functional web implementation.

Inventory Control Specialist

2024 | Rheinmetall Air Defence AG • Switzerland

- Documented and managed enterprise inventory systems using SAP software, developing proficiency in complex database management and systematic data processing.
- Utilized Jira for project tracking and Confluence for technical documentation, gaining hands-on experience with modern collaboration tools.

- Collaborated with cross-functional teams including engineering and production departments.

Assistant - Robotics & Software Development

2022 - 2023 | ETH Zürich Autonomous Systems Lab • Switzerland

- Designed and developed UI for computer software using Figma and Qt Creator in close collaboration with software engineers, creating intuitive UX solutions for autonomous systems applications.
- Researched, defined, and developed UX concepts, conducting UX design processes from ideation to implementation in cutting-edge robotics projects.
- Managed procurement processes for technical components and coordinated with suppliers to ensure shipment.
- Supported doctoral and master students with research projects involving PCB soldering, 3D printing, laser cutting, and CAD design using Fusion Autodesk 360.

Civil Service - Community Integration

2022 - 2023 | TISG Refugee Center Rosenau • St.Gallen, Switzerland

- Provided comprehensive support to Ukrainian refugees, managing administrative processes, coordinating accommodation, and facilitating integration services.
- Organized and taught German language courses, demonstrating strong communication skills and cultural sensitivity.
- Managed documentation processes and database entries using specialized refugee management software.

Polymechanic

2020 - 2022 | Gietz AG • Switzerland

- Specialized in precision mechanical assembly for punching and embossing machines, developing strong analytical and problem-solving skills.
- Performed electrical cabinet wiring, gaining hands-on experience working with schematics.
- Collaborated with engineering teams to optimize manufacturing processes, demonstrating ability to work in agile environments and implement systematic improvements.
- Ensured quality standards and technical documentation, building foundation for writing clean, maintainable code and comprehensive project documentation.

Technical Skills

- HTML5 & Semantic Markup | CSS3 & Sass/SCSS
 - JavaScript ES6+ | Ruby on Rails
 - WordPress Development | Python Programming
 - C Programming | SQL & Database Design
 - Qt Creator & Qt-tool | SAP Enterprise Software
 - Jira | Confluence
 - Data Structures & Algorithms | Memory Management
 - Responsive Web Design | Bootstrap
 - Git Version Control | RESTful API Integration
 - UX/UI Design | Figma
 - Cross-Browser Compatibility | Agile Methodology
 - Web Performance Optimization | Accessibility (WCAG)
 - PostgreSQL | Software Engineering Principles
 - Computational Thinking | CAD (Fusion 360)
 - 3D Printing | Web Hosting & Deployment
 - Domain Management | Unity
 - Blender |
-

Education

Le WagonWeb Development Bootcamp

2025 | Le Wagon • Cape Town, South Africa

- Focus: Full-Stack Web Development, Front-End Specialization
- Technologies: JavaScript, Ruby on Rails, PostgreSQL
- Completed intensive 2-month program gaining proficiency in Ruby on Rails framework, HTML5, CSS3, and JavaScript ES6+
- Developed "Logs AI" - innovative audio journal application with speech summarization
- Collaborated with teams on full-stack applications using Ruby on Rails and PostgreSQL
- Implemented responsive design with Bootstrap, Flexbox and Grid
- Deployed projects using Git version control and Heroku platform

CS50: Introduction to Computer Science

2024 - 2025 | Harvard University • Online

- Focus: Computer Science Fundamentals, Algorithms, Data Structures

- Languages: C, Python, SQL, JavaScript, HTML/CSS

Self-Directed Computer Science & UX Design Study

2023 - 2025 | Independent Study • St.Gallen, Switzerland

- Conducted comprehensive self-study in Computer Science fundamentals, UX Design principles, and modern web development technologies
- Developed proficiency in JavaScript fundamentals and responsive web design principles through certified online courses
- Acquired user-centered design skills through Google UX Design certification

Federal Certificate in Polymechanics

2016 - 2020 | Swiss Vocational Education System • Switzerland

- Specialization: Precision assembly and Technical Systems
- 4-year apprenticeship combining theoretical knowledge and practical application

Certifications

Web Development Certificate Le Wagon

Swiss Federal Certificate in Polymechanics Swiss Federal Institute for Vocational Education and Training

Harvard CS50 Certificate Harvard Introduction to Computer Science Program

UX Design Fundamentals and Process Certificate Online Certification Program

JavaScript Fundamentals Certificate Online Certification Program

Responsive Web Design Certificate Online Certification Program

Learning How to Learn: Powerful mental tools to help you master tough subjects Online Certification Program
